Your Trainer: “Até”

- Dual citizen Canadian and French “Até” grew up on RAF Linton-On-Ouse with an exchange instructor father on the RAF Jet Provost. After being Europe’s youngest pilot at 15 in 2001 and flying in the French national Precision Flying team for the 2006 World Championships, he joined the French Navy to fly jets.

- After 26 months as an exchange Officer in the US NAVY he graduated as a Naval Aviator and flew Super-Etendard from the aircraft carrier Charles de Gaulle. In 2014 he transitioned to the Dassault Rafale.

- “Até” deployed several times including after the 2015 French terrorist attacks. He flew missions over Iraq, flying combat missions from the French aircraft carrier both at night and day. He received a Cross for Military Valour for meritorious action in the face of the enemy.

- Flying several seasons in the French Navy Tactical Display as wingman he became the Leader of the display in 2017. Meanwhile, he was appointed Rafale Navy Subject Matter Expert and chief instructor for the Rafale in the Navy.

- Leaving the military to fly for a Major Airline on the Boeing 737MAX, he decided to share his unique experience.

- “Até” holds over 2500 hours of flight time including more than 1850 hours on fighter aircraft. He flew a wide range of aircraft from general aviation or aerobatic aircraft to Business jets and of course fighter aircraft. He holds over 200 carrier landings. Enjoying triathlon he took part in the 2007 Amateur Long distance Triathlon World Championships and in the 2009 Amateur Short Distance Duathlon World Championships.

- He spoke for events or companies like Dassault, Safran, MBDA, Thales, The London Tech Week, EdTechXEurope.

- Married with a family of three, they now live in Hampshire.

Goal

- Discover how fighter pilots manage stress, workload, make decisions, communicate, plan, brief, execute, debrief and improve after every single mission.
- Instructed by a combat decorated Naval aviator, Rafale instructor.
- Every class is tailored to the team need.

Timeline example:

- 0750-0800: Meet & greet
- 0800-0810: Safety + installation briefing on the simulators
- 0810-0840: Discovery of the flight simulators (basic handling flight)
- 0845-1000: Briefing on fighter pilot techniques & methods
- 1005-1055: Mission preparation
- 1100-1120: Mission Briefing
- 1120-1150: Mission
- 1155-1230: Mission + morning Debriefing

Mission example:

- Learn about the fighter pilot methods.
- Brainstorm how to conduct a reconnaissance mission in enemy territory with three aircraft.
- Plan how to fly over the targets and minimize time over enemy territory.
- Brief the mission to make sure everyone knows the plan and work as a team.
- Perform the mission and change your plans to adapt to the situation, enemy aircraft and air defense.
- Debrief your individual and team performance, identify the key points and lessons learned.
- Leave the training session with new knowledge and methods used in £100.000.000 planes that you have experienced by yourself and with your team.
